

AIRE COPRESSOR

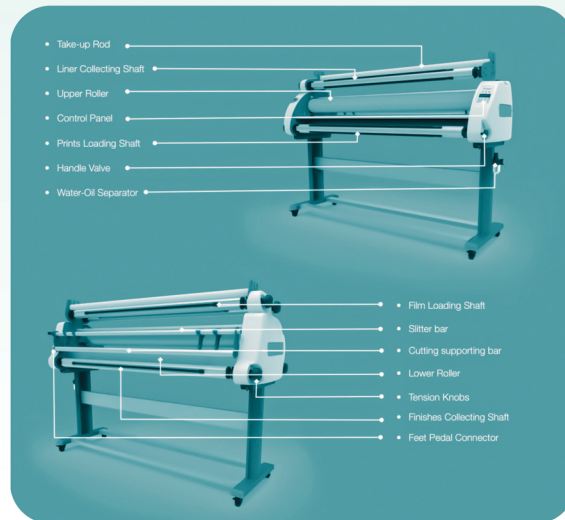

FOOT SWITCH

OIL WATER SEPARATOR

DESCRIPTION OF MACHINE PARTS

Model	NAB-1600-L
Max lamination width(mm)	1600mm
Max lamination thickness(mm)	30mm
Laminating speed	0-6m/min
Temperture adjusting scope	Room temperature -60°C
Lifting method of rubber roller	Bilateral linkage lifting
Heating method of rubber roller	Infrared intemal heating

Preheating time of rubber roller	10-15min
Continuous work power	0.8-1.0 kw/h
Rated input power	1800 W
Rated input voltage	110/220 V
Machine weight	180 KG
Dimensions	540 x 1100 x 1650 mm
